DYNES

Discover Your Nature

A modern building with a grid-like facade and large windows. The word 'DYNESS' is visible on the upper part of the building. The image is dark and serves as a background for the text.

Why is Dyness the best choice?
Excellence **in every aspect.**

DYNESS

From home storages to
commercial solutions.

Revolutionizing C&I:

STACK100

Stack100 Overview

47kg Net Weight

One cluster installation in **30min**

Flexible Expansion

15kWh

5kWh Step

77 kWh

15.4 - 76.8 kWh
3 - 15 Module (max. 11 pro Stack)
180 - 864 V
Free mixing of modules within three years

Up to 920 kWh
Max. 12x in parallel

Easy Installation

1 Rackless free stacking
Plug & Play

2 Simple cable plug-in
design
Grounding, DC & COM

3 Switch on
Get started!

Ultra safe

D

Intelligent Fire Extinguishing System, React within 5 seconds

Anti-Firing

Cooling

Shutdown

Long Life

Balanced cooling, Prevents overheating

D

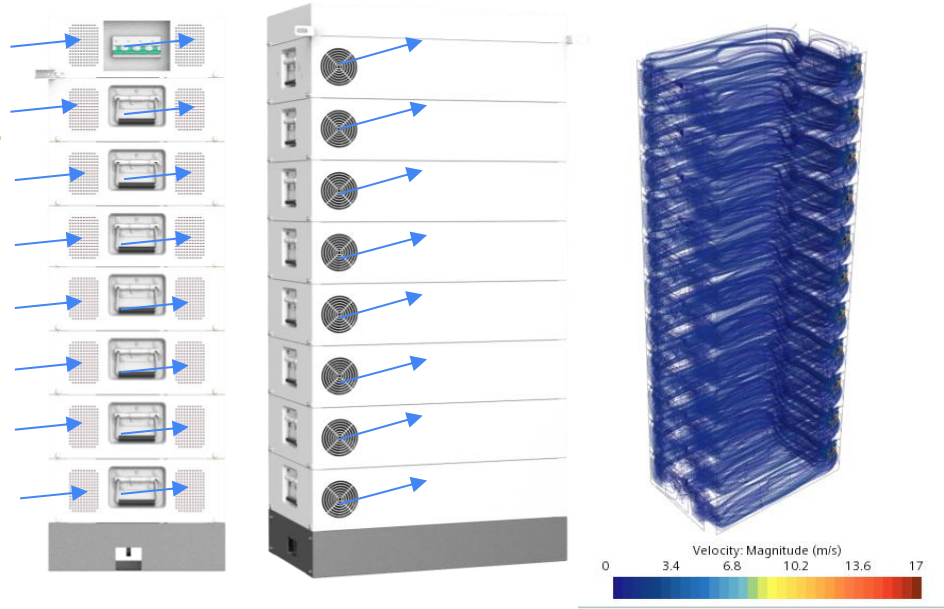

Longer life and performance

Thermal design with integrated air ducts allows for better heat dissipation and lower temperatures in the batteries.

Smart thermal management enables better warranty:

- 10 years
- Unlimited cycles
- 1 C Rate

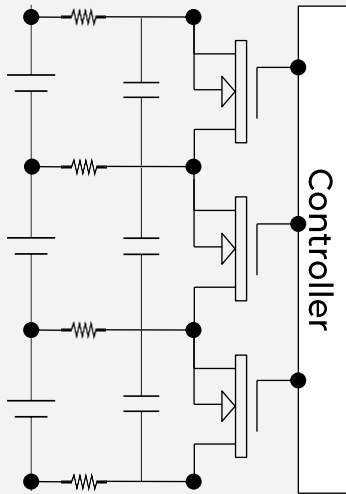

Separate air inlets and outlets

High-precision BMS

Millisecond level status monitor, real time battery management and optimization

System Topology & Operation Algorithm

Passive Ballancing

Charge Balance &
Static Balance

Activation

- PMax Cell Voltage: **>3.2V**
- Cell Voltage Difference: **10mV**

Ballance Ability

- Max **30 cells** works simultaneously
- Ballance for Cells and Modules
- Max **100mA** Ballancing Current

SOC Equilibrium

More Precise
Battery SOC

Higher Cell
Uniformity

Battery longer
lifespan under
better conditions

Battery Capacity
Fully Used

1C Rate

Charge Faster

1C Rate

0.7C Rate

=

0.5C Rate

Power more Consumers

Higher C-Rate is Better Choice for:

- Short-term Backup
- With Larger Solar system
- Utility Service
- Electricity Trading / Dynamic Rates

... ..

Save Space & Labor

D

DYNESS Stack100

Flexible Layout

Plug & Play

Modularized

Traditional solutions

Heavy - need Crane

Fixed Size -
Need Specified Space

Fixed Capacity

Concrete Base

Multi Cables

Fixed Height

Assembly work

Smart APP

D

Real-time system monitoring Smart control and OTA upgrade

Monitoring via Inverter

Communication via:

Inverter, which reads data from the storage BMS

- Battery System Real-time Running Data
- Battery System Real-time Operation Status
- Battery System Historical Data

Battery App

Communication via:

Direct network connection with Dyness Built-in WIFI Module

- Battery System Real-time Running Data
- Battery System Real-time Operation Status
- Battery System Historical Data
- Battery Cell Voltage and balance
- Battery Cell Temperature
- Battery System recycling Status, etc.
- Remote Firmware Updating

Mult-Scenario support

Farms

Outdoor Cabiner

Restaurants

Charge Station

Partner Inverter Brands:

Sinexcel

GOODWE

growatt

Deye 德業®

Perfect Compatibility

Stack100 - 20~40kWh

S6-EH3P-12~20K-H

System Combination:

Solar Capacity: 15~40kWp
Inverter: 12~20kWac
Battery Capacity: 15~40kWh

Charge Power: 12/15/20kW
Backup Function Integrated
100% 3p Unbalance Output

Suitable Applications:

Restaurant

Shops

Base Station

Stack100 - 30/100kWh

S6-EH3P(30-50)K-H

System Combination:

Solar Capacity: 40~100kWp
Inverter: 30~50kWac
Battery Capacity: 30~100kWh

Charge Power: 30~50kW
Backup Function Integrated
100% 3p Unbalance Output

Suitable Applications:

Community

School

Charge Station

Farm

Perfect Compatibility

GOODWE

D

Stack100 - 40~100kWh

GW50K-ET

STS BOX

AC COUPLE & HYBRID

System Design: 50~100kWp + 40/50kWac + 50~126kWh

Max Charge Power: 55kW

Optional Backup Solution (Seamless Switch)

100% 3-phase Unbalance Output

VDE4110 & VDE4105 Compatible

AC & DC SPD Protection (Type II)

Suitable Applications:

Small Enterprise

Workshop

Community

School

Charge Station

Farm

DYNES
